The features of the boys

—————“*Lord of the flies*”

Introduction

In this book report, I will divided into three parts. The first part I will introduce the features of the 4 main boys—Ralph, Jack, Piggy, Simon. The second part I will introduce them, and analyze them, and then I will write the connection. Each boy are corresponding a kind of person in society. At last I will say something for my own opinion.

Introduction of the main characters in the book

The story have been happen in an island, which did't have other people without the boys. In the book *Lord own the flies*, there are four main character in it. Ralph, Jack, Piggy, Simon. They are four different people. The first one , Ralph, he is a person that act like a leader. The second one is Jack. Jack is the rebel from the story, and he has the totally different idea with Ralph. The third one is Piggy. Piggy is the person who has a lot of knowledge, and knows a lot of things. The final one is Simon. Simon is one of the most important people too. He is kind. His behavior shows that he is a kindest person in the book, and I think he is represent the “good” person.

Ralph

Ralph is a person that leads everybody. He is a leader. He has the temperament of leader. The first symbol — conch. The couch is found by him, and the first meeting is collected by him, and then everybody choose him to be the leader. When he is the leader, he use the way that is the rule of civilized society. He always let everybody to hang up their hand to vote. He want to listen to everybody's idea. When Ralph lead the boys, the main things they do is get the way to be rescue. He let some boys to fire, and let other boys to hunting the food.

He make a lot of rules in the island. He want it to be equal, and democracy. But Ralph do a wrong things. The things is that he tells everybody that Piggy's name. Piggy did't want him to tells others. In here I think it shows the west democracy society is not perfect. It have a lot of mistakes, it can be more sophisticated.

Ralph is represent a kind of person in the society. He is represent the "leader". The leader is a kind of person that can lead and help the confused people, and give them a way to let them know what they need to do. In the book "Lord of the flies", Ralph is a person that same as leader. He lead the rest of the boys. He told them the way that can help them.

Piggy

Piggy is a person who had a lot of knowledge. He knows a lot. In the book, remember in the first time they are trying to fire, is piggy thought the way that can fire it. He use his glasses, and reflect the sunlight to the bonfire. (chapter2 page37)

Piggy always being laughed. He is the represent of rationality. Same as Ralph, the final things they wants is to be rescued. But Piggy was killed by Jack. He use himself to defend the rationality. Piggy always telling the sense of a things. But in the most cases, the rest of the boys can't understand what he is saying. "The truth is know by the minority."

In the society, Piggy is represent a kind of person—scholar. He knows a lot, and he is a rational person. He always use his knowledge to help on the island. This kind of people always have a high academic major. But why Ralph at the end is died? He is a person that can get trust of a lot of people. Because he knows the truth and he has a lot of knowledge to support him. But in "Lord of the flies", because the human nature, so everybody leave him away, and follow Jack.

Jack

Jack is the rebels from the story. He is represent the savage, and fierce. He is a person that really like hunt. He leads many of the boys hunt with him. They hunt the pig and concrete to the monster, whether it is themselves. He hunt, and he is enjoy the process of hunting. Hunting is release his human nature. The next things that happen in the plot is Jack and the other boys are dancing and eating the pig they are hunted. They are surrounding with the fire. In this part it shows a lot of the human nature. In the end, I

think Jack can't control himself, and he didn't know what he is doing. Because his human nature is exposed, and I think some of his behavior is decided by his subconscious.

In the society that we lived. I think Jack is the rebels. In our thoughts, Jack must be the bad person in this story, or society. But Jack just do himself. He didn't know his behavior is bad. He just Follow his heart, and do the things he think is right. Maybe this is our nature.

Simon

Simon is the most secret person in the island. I think he is represents the "kindness person". In the book, his behavior is always kind, and pure. He loved the nature, the evidence I found in the book is, one times he is in the forest, and he saw a worm that is dying, he saved the little worm, and let it survive.

The truth is found by Simon. Simon found the truth about the monster. The most irony things is, when Simon gonna tells everyone about the monster, the boys(except Ralph and Piggy) killed him. "The dead of Simon is like the ethics and morality that underpin stake in human society have been removed, and society has been plunged into a state of chaos." They didn't care about the monster anymore. The next things they want is to killing Ralph and Piggy. This is the transition in the book. Everybody's attention is on the beast before, but when Simon is dead, everybody's attention is on Ralph and Piggy. I think the author let Simon dead, but the spirit of Simon didn't dead.

Simon is the kindness person in the book. In the society there are so much people like him. His chartists is very easy to find out. It is kindness. He's heart is full of kind. He is like Lei Feng. But the author's opinion is the human nature is evil, so Simon is died.

These boys is represent to the different person in our society. Ralph is represent to the Civilized society, and Jack is represent to the Barbarian society. The main difference of these two society is Civilized society have the rules, and the Ethical standards, but the Barbarian society didn't have any rules in it.

The human nature can't control by our self, so is not the fault of everyone.
