Part 1 Interview

Interview with Kate

R: How long do you have for doing your own hobby?

K: How long? You mean once a week or twice a week, something like that?

R: Maybe like in a day, you have one hour or two hour to do your own hobby things.

K: Oh, I think every day. Before I go to sleep, I will enjoy my reading hours.

That is my own hobby.

R: Which book do you like?

K: AH, hahh, anything.

R: Ok, I am same.

K: Because I will search the key words and try to find the book. And I want to extract some new book I haven't read before. And you know that we have an activity named (I do not know) . I want to find some new book I heard it before.

R: Can you tell me what kind of book you more like? Like the fiction or non-fiction.

K: I think both. If I want to solve some problems I will find some tools. But if I want to have some ideas or something I never imagine before, I will

find some book I never read before.

R: Yeah I think it a really good way to choose the books you want to read. Because that is what you need now and what you enjoying now. Do you think the time before to sleep is enough?

K: No. I don't think it is enough.

R: Yes, I see. If I only have the time before go to bed for reading, I will feel it to short for my reading. I even cannot get into the emotion of reading.

K: Yes, and because we have online teaching in these days, and it change my habits. In before, when we go to the academy, I will walk about half an hour to go to school and go back to the home. I was enjoy some listening on the way to the home. And now, I do not have that time. So it will cut some of my ideas and time of design what book I will read that night.

R: I see, Kate, you guardians are so hard now. Ok, let us go to the next question. Which guardian do you like best in moonshot?

K: Of course Chuck.

R: hhh, why? I think he is very fun at some times. I still remember he was talking on last semester end with other guardians.

K: You didn't take with him last semester?

R: Not so much. Because I did not join in his classes last semester. I did not have a long time to talk with him.

K: You can try to do that in this semester.

R: I`m trying to talk with other guardians, like now.

K: Yes, if you want to play with someone, you will go to find someone who are same as you. But if you want to create something, you`d better to find someone who will make you think "oh, he is total different from me!" I think It will give you a great help. That I and Chuck are in this way.

R: I think the Moonshot is a good place for doing something like this. The third question maybe not very good..... Have you got any not very good or unhappy memory in Moonshot? Can you tell me what happened?

K: I think we will have it every days. Because our emotion is not in a line. It will go up and down, up and down,. I think it will be a great challenge of manage our emotion. And it will be a great help even you get challenge. OK, and I can give you a example, I had tap a message in our We Chat Work. Like I need to sign up on Canvas. I do not think it will really work. But I should do that. It will be a down emotion point.

R: Yes I know the feeling.

K: But it does not matter, because I can also find something crazy or something I want to create. I will hold my emotion and sure that I know the reason why I have to do that. It will happened every days but I think it okay.

R: I see it harder then I think. The life of you guardians. I want to tell you pick sometime to release you emotion in your heart. If I get out at one time, it must be a very bad and sorrow feeling. Just want to die at the

moment.

K: I think so. If you think you are doing something for others, you will see that you are angry, want to have a clear place to stay. But if you think that you are working for you and want to create something, you might change your position of your mind.

R: ok, thank for this interview.

Part 4 My Presentation

How to Create
Your Story.pptx

How to create your own story

Hello everyone. I am Robinson Yang, your friend. I think lots of you know that I am writing my own novel now.

Do you like stories? Have you ever read a wonderful novel all night? Have you ever been moved to tears by a touching movie? Have you ever been attracted by the ups and downs of the epic, can't extricate yourself?

Did you ever think, you can create these stories by yourself? Today, we are going to talk about **How to Create Your Own Story**.

Okay, the first point is, PLOT.

This is the soul of your story. Everything you want to express must be presented with the plot. But, it is very hard to create the how plot without a plan.

If you are not sure about how to start it, you can try with the World View.

Set up a world, or a place for your story. The whole plot will use this area as the background.

After that, you need to think about the main idea. What do you want to tell in this story? The example is like American Born Chinese, its main idea is to accept yourself. You can design some key points of the whole plot at

first.

And then, you got your characters. You need Development momentum to advance your plot. To do that, you need make your characters work in a logic. Following this logic, you can let your plot develop reasonably to the key points you have designed.

That is the way to create your own story. But do not forget the most important point. KEEP WRITING, DO NOT STOP. Maybe you can not use these skills well at first. But after practice, you can create your own world, like all the others writers do.

Thanks for listening.
