

An aerial photograph of a city completely inundated with floodwater. A long bridge with multiple lanes and a pedestrian walkway stretches across the water, carrying several cars. The surrounding urban area, including houses, trees, and commercial buildings, is submerged. The image is dark and somber, emphasizing the severity of the flooding.

An aerial photograph of a city street that has been completely flooded. A multi-lane bridge spans the water, with cars visible on it. The surrounding area is filled with residential and commercial buildings, many of which are partially submerged. The water reflects the sky and the structures. The overall tone is somber and highlights the impact of climate change.

●
COME BUILD THE FUTURE.

An aerial photograph of a flooded urban area. A large bridge with multiple lanes and a central walkway spans across the water. To the left of the bridge are several large, rectangular industrial or commercial buildings. To the right and in the foreground are numerous smaller residential houses and buildings, many of which are partially submerged in the floodwater. The water is a dark, murky brown color. The overall scene depicts significant flooding in a city.

Project 2

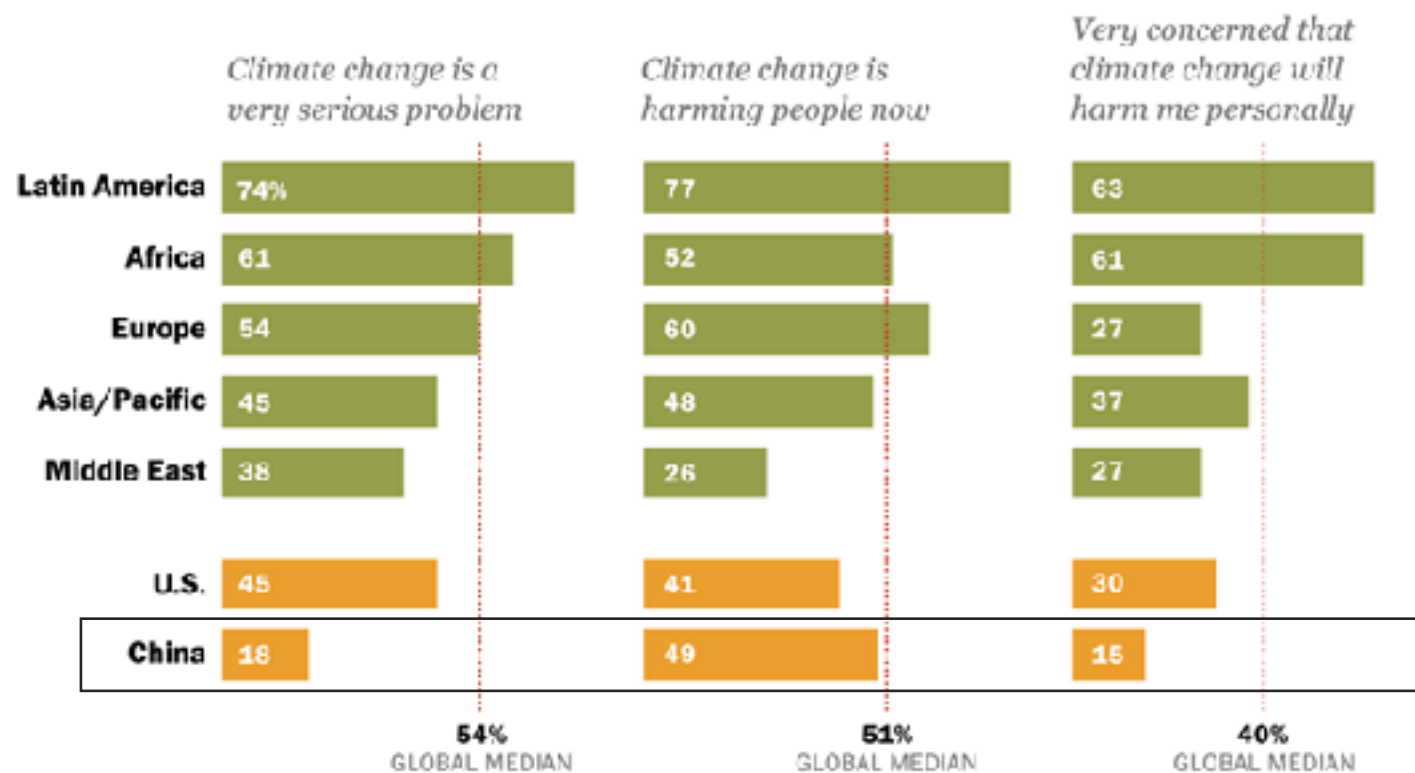

Raising awareness in China
